

The Electrician, Inc. Workshop

The Electrician, Inc. is pleased to host:

NFPA 70E Electrical Safety in the Workplace (2024) 2-day Classroom Training

Training Dates: November 28th and 29th, 2023 **Session hours** 8:00 a.m. to 4:00 p.m.

Location: The Electrician, Inc.
429 Venture Ct.
Verona, WI 53593

Overview:

The Electrician, Inc. is pleased to host this NFPA 2-day classroom training with the launch of the 2024 edition of the [NFPA 70E Standard for Electrical Safety in the Workplace.](#)

This workshop will be a unique opportunity for an in-person, NFPA Instructor-led, 2-day workshop. Our scheduled NFPA instructor will be Mark Ode, who has served the NFPA in various capacities for more than 25 years. As we work through the 70E 2024 release, Mr. Ode will be able to provide a deeper understanding and insight to the technical committee's standards development.

Participants will receive a **Certificate of Attendance** issued by the NFPA. You will be able to obtain a **Certificate of Educational Achievement** by completing the online testing requirements.

Cost: Early Registration due by August 1st will be \$1,295.00 – Seating is limited
(Invoices will be sent out to all early registrants on August 1st)
Registration after August 10st will be \$1,395.00

2-day Classroom Workshop Includes:

- NFPA 70E Electrical Safety in the Workplace 2024 edition
- Classroom Instruction materials
- Morning continental breakfast and coffee
- Lunch on both days
- Afternoon beverage and snack break

NFPA 70E -- Education Objectives from 2-day seminar:

- Pinpoint the changes to the 2024 edition
- Understand the interaction between NFPA 70E and OSHA requirements
- Define electrical safety hazards and how to protect against shock, electrocution and arc flash
- Identify safety policies and procedures employers are legally required to provide for their workers
- Describe the safety procedures needed to work safely while exposed to live circuits
- Recognize the intent and limitations of personal protective equipment
- Describe requirements for energizing and de-energizing power circuits
- Identify the elements of an Electrical Hazard Analysis
- Use the NFPA 70E Arc Flash PPE Tables to determine Arc Flash PPE Category for various tasks
- Identify safety-related maintenance requirements for a wide range of electrical equipment, including those specific to batteries and battery rooms, electrical distribution equipment, and safety grounding equipment
- Identify the hazards to personnel working with equipment and employee responsibilities
